Schaltflächen mit "Blur-Effekt" belegen

Einleitung

Beim Erstellen eines Dashboards mit **Heimdall** wollte ich gerne die Schaltflächen mit einem **"Blur Effekt"** belegen. Dafür müssen wir nur den nachstehenden **CSS-Code** in das System einpflegen. Dazu einfach die Einstellungen öffnen und den Code in das Textfeld eingeben.

Code

```
@import url("https://fonts.googleapis.com/css2?family=Raleway:wght@700;800&display=swap");

#app {
  background-position: right;
}

#app #sortable,
#app main {
  padding: 20px;
}

  bottom: 50%;
  transform: translateY(50%);
  border-top-left-radius: 10px;
